Re: Comments on EPA Responses to State and Tribal 2006 24-Hour PM_{2.5} Designation
Recommendations

The Fairbanks North Star Borough I/M and Air Pollution Control Commission (PCC) held a public meeting on September 16, 2008 and unanimously passed a resolution and recommendation to the EPA through the Fairbanks North Star Borough Mayor:

PCC Resolution 2008-1

After review of the EPA PM Standards Revision for Particulate Matter -2006, including the timeline for the EPA's designation for the proposed PM_{2.5} non-attainment boundary for the FNSB area, the Pollution Control Commission voted unanimously to recommend the deadline for designation, 12/18/08, be extended to a designation date of 12/18/09, one full year. This request is desired to allow time to collect the data needed for a more scientifically based assessment of the extent of the PM_{2.5} problem area.

As authorized by the seven PCC members present I sign this letter on behalf of the commission,

Chuck Machetta, Chairman PCC
1110 Meadow Rue
North Pole, Alaska 99705

cc: Elin Miller, Regional Administrator, EPA Region 10
Krishna Viswanathan, EPA Region 10
